

ClassMate Test Plan and Report

User Stories

- A. User Story #1:** As a student who wants to connect to other students, I want an authenticated platform to find them.
- B. User Story #1:** As a student, I want to be able to store all of the classes I'm taking so that I can compare them with other students.
- C. User Story #2:** As a student trying to create a study group, I want to be able to display my group to attract potential members.
- D. User Story #3:** As a student, I want to be able to send messages to discuss material and meet my study group.
- E. User Story #4:** As a student, I want to be able to reach out to individual classmates to make study plans.
- F. User Story #5:** As a student who wants to find people with similar interests, I need to be able to showcase who I am on my profile.
- G. User Story #6:** As a student, I want the option of knowing what my classmates look like before reaching out to them.

System Test Scenarios

Scenario A.1: Create Account (Test Passed)

1. Start ClassMate app; select 'Register'; type
Username = <Joe>
Password = <joepass>
Email = <joe@example.com>
Click 'Submit'
2. User should be redirected to login page
3. Same email cannot be used to register another account

Scenario A.2: Login to Account (Test Passed)

1. Start ClassMate app; select 'Log In'; type
Email = <joe@example.com>
Password = <joepass>
Click 'Submit';
2. User should be redirected to 'My Groups' page
3. Unregistered users cannot login

Scenario B.1: Upload Class (Test Passed)

1. Select 'Menu'; select 'Profile'; select 'Classes'; select 'Course Number' in the 'Change Classes' card; type
Course Number = <CSE115A>
Click 'Add'
2. User should see the added class under 'Your Classes'

Scenario B.2: Remove Class (Test Passed)

1. Select 'Menu'; select 'Profile'; select 'Classes';
Click the 'x' icon on the 'CSE115A' text bubble
2. CSE115A should no longer be in the 'Your Classes' list

Scenario C.1: Create Group (Test Passed)

1. Start ClassMate app; select 'Register'; type
Username = <Joe>
Password = <joepass>
Email = <joe@example.com>
Click 'Submit'

2. User should be redirected to login page
3. Type
Email = <joe@example.com>
Password = <joepass>
Click 'Submit'
4. User should be redirected to the home page with My Groups displayed
5. Click '+Create'
6. User should be redirected to Create Group page
7. User should not be able to click 'Submit' unless a group name has been entered
8. Select
Class = cse115a
Type
Group name = <test group>
Group description = <test description>
9. Click 'Submit'
10. User should be redirected to the home page with My Groups displayed and the newly created group also visible

Scenario C.2: Search Group (Test Passed)

1. Start ClassMate app; select 'Register'; type
Username = <Joe>
Password = <joepass>
Email = <joe@example.com>
Click 'Submit'
2. User should be redirected to login page
3. Type
Email = <joe@example.com>
Password = <joepass>
Click 'Submit'
4. User should be redirected to the home page with My Groups displayed
5. Click 'Explore'
6. User should see a list of all groups
7. Type
Search for a group = <test>
8. All groups with 'test' as a substring should appear

Scenario D.1: Join Group (Test Passed)

1. Select 'Menu'; select 'Groups';
Click 'Explore';
On desired group to join, click 'View';
Click 'Join Group';
2. Group card clicked on in the 'Explore' page should now be visible in the 'My Groups' page.

Scenario D.2: Send a message to a group (Test Passed)

1. Select 'Menu'; select 'Groups';
In 'My Groups,' click on the desired group, and click 'View'
Click on the messaging prompt and type a message
Either press enter or click send to send a message
2. Messages should show up on the right side of the messaging ui. It should also be viewable in real time for all other members of the group on the left side.
3. The message should show up at the bottom of the page, and should push all older messages up.
4. Input should be restricted to messages below a certain character limit

Scenario D.3: Join an existing group and view old messages (Test Passed)

1. Select 'Menu'; select 'Groups';
Click 'Explore';
On desired group to join, click 'View';
Click 'Join Group';
In 'My Groups,' click on the desired group, and click 'View'
2. If members of that group already sent messages, you should be able to view all of the messages already sent.

Scenario E.1: Add Friend (Test Passed)

1. Select 'Menu'; select 'Profile'; select 'Friends List';
Edit the 'Search by Email:' form
Click 'Search'
2. If a user exists with an email that you entered in the 'Search by Email:' form, a new card titled 'User found: {name of user you searched}' should be seen.
3. Click 'Add Friend'.

4. '{name of user you searched} added!' should be visible, and that name should appear in a list under 'Your Friends' on the same page.

Scenario E.2: Send a direct message to a friend (Test Passed)

1. Select 'Menu'; select 'Profile'; select 'Friends List'
Navigate to 'Your Friends,' and select the friend you want to dm
Click on the messaging prompt and type a message
Either press enter or click send to send a message
2. Messages should show up on the right side of the messaging ui. It should also be viewable in real time for your friend, but should be on the left side.
3. The message should show up at the bottom of the page, and should push all older messages up.
4. Input should be restricted to messages below a certain character limit

Scenario F.1: Edit Username (Test Passed)

1. Select 'Menu'; select 'Profile'; select 'Edit Profile';
Edit 'Username:' form
Click 'Save Changes'
2. New username should be seen on profile, friend lists, group member lists, and all messages sent from the user.
3. Input should be restricted to 22 characters

Scenario F.2: Edit Biography (Test Passed)

1. Select 'Menu'; select 'Profile'; select 'Edit Profile';
Edit the 'Biography:' form
Click 'Save Changes'
2. New biography should be seen on profile
3. Input should be restricted to 172 characters

Scenario G.1: Upload profile picture (Test Passed)

1. Select 'Menu'; select 'Profile'; select 'Edit Profile', in the 'Upload Profile Picture' card;
Click 'Choose file' to input file
Click 'Upload'
2. New profile picture should be seen on profile, all messages sent from the user, and when others are direct messaging the user.
3. Input should be restricted to image file types only

Scenario G.2: Remove profile picture (Test Passed)

1. Select 'Menu'; select 'Profile'; select 'Edit Profile', in the 'Upload Profile Picture' card;
Click 'Reset'
2. Profile picture should return to default on profile, all messages sent from the user, and when others are direct messaging the user.
